

REMARKS

- (1) Applicant amends the specification herein to correct typographical errors in paragraphs [0027] and [0044], as recommended by the Examiner.
- (2) Claims 1-24 are pending in the present application. Applicant amended claim 21 herein, but no new matter has been added.
- (3) Claim 21 has been rejected under 35 U.S.C. § 112, second paragraph, as assertedly being indefinite or failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. Applicant has amended claim 21 to overcome this rejection. Specifically, the limitation "said second transistor" in claim 21 now has proper antecedent basis because it depends from claim 19. According, claim 21 is now allowable.
- (4) Applicant acknowledges and thanks the Examiner for allowing claims 1-20 and 22-24.
- (5) In view of the above, Applicant respectfully submits that the application is in condition for allowance and requests that the case be passed to issuance. If the Examiner should have any questions, Applicant requests that the Examiner contact Applicant's attorney at the address below. No fee is believed to be due at this time. In the event that there are any fees due herein to keep the application pending, other than an issue fee, please charge the same, or credit any overpayment, to Deposit Account No. 50-1065.

Respectfully submitted,
